

June DIY:

Maracas!

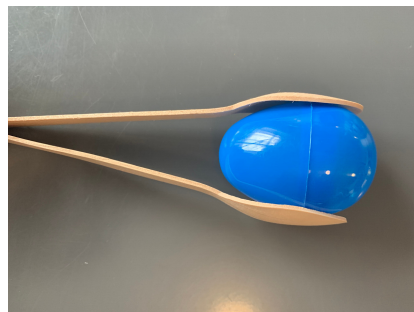

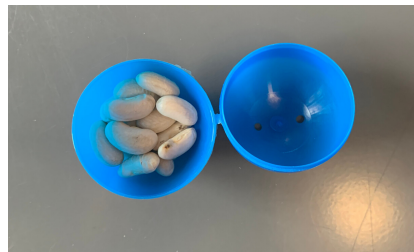

Materials needed:

1. Two spoons
2. A plastic Easter egg
3. Washi Tape
4. Raw beans or rice

Directions:

1. Crack open Easter egg, pop in your beans or rice (we are using beans) and snap the egg back together.
2. Take your spoons and place egg between the scoop ends.
3. Wrap washi tape around the spoon scoops and egg, then around the handles. If you'd like, wrap the entire thing in tape!
4. And... You've got yourself a Maraca! SHAKE TO CELEBRATE!
5. Don't forget to stick a velcro dot on maraca! Now you can carry it on your vest and make your own beats with your body!

Show off your kiddo's DIY skills (or yours, you big kidult) and post on social.
