

March DIY:

# Popsicle Picture Frame

Materials needed:

1. Washi Tape
2. About 10 popsicle sticks (or more if you want a larger frame)
3. String
4. Markers

Directions:

1. Start by coloring your popsicle sticks using markers
2. Tape the front of your popsicle sticks, and continue taping it until most of the front is covered. (If you want extra security, take the back too!)
3. If you would like to hang it somewhere, take a piece of string (about 12 inches) and tape the ends of the string to the back of the frame
4. What will YOU carry? You can always carry these memories with you on your vest! Just place velcro on the back and show off your memories!

Show off your kiddo's DIY skills (or yours, you big kidult) and post on social.
